

Kavya D

AI/ML Engineer

Accomplished Data & AI enthusiast eager to leverage my knowledge in data analysis and machine learning to contribute effectively to challenging projects. Armed with proficiency in Python, SQL, and a passion for learning, I am excited to continue my career of transforming data into meaningful insights. Seeking an opportunity to grow and apply my skills in a dynamic and collaborative environment.

WORK EXPERIENCE

Software Engineer Accenture

09/2023 - Present

Contributed to the design and implementation of Gen AI-driven chatbot solutions as a Developer

Achievements/Tasks

- Utilized Python coding skills to design, develop, and optimize chatbot functionalities, including the integration of OpenAI models to improve conversational responses and application of prompt engineering concepts.
- Leveraged Azure cloud services for scalable and efficient deployment of the chatbot, ensuring seamless performance and accessibility.
- Collaborated closely with cross-functional teams, including developers and business analysts, to align chatbot functionalities with project goals.

Associate Software Engineer Accenture

01/2021 - 08/2023

Worked in Air Cargo Reservation and Capacity Application upgrade from v6.0 to v8.1 which went live in May 2022

Tasks/Achievements

- Leveraged analytical expertise to collaborate with cross-functional teams, identifying patterns in software defect data and providing insights that significantly reduced testing time by 20% and improved defect detection rate by 15%.
- Developed a robust testing strategy utilizing data analysis to pinpoint high-risk software areas, enhancing testing efficiency.
- Meticulously identified and documented defects, utilizing Jira for agile project management, and performed thorough regression testing to ensure sustained software performance.
- Received "On the Spot" award for exceptional contribution in Accenture for FY21 H2 and "The Extra Mile Award" in Offshore - Team Category for outstanding contribution to Clients, People, and Organization.

EDUCATION

Bachelor's Degree in Electrical and Electronics Engineering

Sri Venkateswara College of Engineering

2016 - 2020

Sriperumbudur, CGPA- 9.43

SKILLS

Python

EDA

SQL

Machine Learning

Power BI

PERSONAL PROJECTS

Investigating Online Payment Transactions for Fraud Detection

- Conducted exploratory data analysis using Python to detect online payment fraud, identifying 8213 fraudulent transactions (0.13% of 6lakh) and deriving valuable insights

Mobile Market Analysis & Prediction on Pre-owned Phones

- Created a regression model to predict phone and tablet prices, employing MSE and R2 score for evaluation and optimizing profits through data-driven insights, enhancing company profitability

Predictive Analysis and Risk Assessment for Heart Attacks

- Developed classification algorithms to predict the likelihood of heart attack, providing healthcare providers with a competitive edge in improving patient outcomes, reducing costs, and enhancing patient engagement

Atliq Technologies Sales Insights

- Designed sales insights BI Dashboard to tackle declining sales and provide regional managers with valuable reports, enhancing business performance understanding

CERTIFICATES

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
(04/2023 - 04/2024) [🔗](#)

Microsoft Certified: Azure Data Scientist Associate (DP-100)
(06/2023 - 06/2024) [🔗](#)

Microsoft Certified: Azure Data Fundamentals [🔗](#)

Microsoft Certified: Azure AI Fundamentals [🔗](#)

Microsoft Certified: Azure Fundamentals [🔗](#)
